

# Rick Benard

Rick Benard's accomplishments speak for themselves as he exemplifies a true professional and champion.

His contributions to the game of bowling include 25 - 300's, 13 - 800's, the highest average in the state for 1993 at 235, 2003 High Roller Champion and countless other tournament wins.

Other contributions include World Team National Title and several World Team Regional titles.

All this and he continues to bowl at the top of his game year over year.

It is not difficult to see Rick's contributions as there are many, but what is not seen in his scores and wins is what he brings to each and every event and to the game in general.

Rick brings a professional approach to everything he does including all the opportunities given to perform. His professionalism, ability and constant desire to win are just a part of his ongoing contribution to bowling.

Rick has worked in a bowling alley for several years and in the time doing so, he's contributed in other ways not seen in the box score.

Rick is always available for assistance and provides a wealth of knowledge. He is, without doubt a well-rounded person and bowler,
